How to Play
Bad Mood BINGO

PREPARE
Print out one blank BINGO card and one set of pictures for each player, plus one extra set of pictures. Cut the extra set of pictures along the dotted lines and put the pictures into a hat or bowl for the caller.

DISTRIBUTE
Ask each player to cut their set of pictures along the dotted lines and then paste the pictures into their blank BINGO card in whatever order they choose.

CALL
The caller should pull out one picture at a time from the hat or bowl, describe it and show it to the players.

MARK PICTURE
When a picture is called, each player should place a penny, rock or something similar on the corresponding picture on their own card.

WINNING
The first player to make a predetermined pattern on their card (for example, a line, a square, an X, etc) calls out BINGO!
