

# HOW TO DRAW A QUILT GHOST

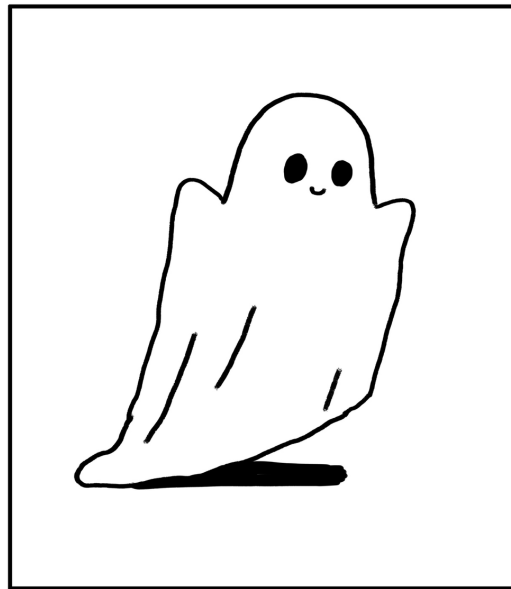

## Step 1:

Let's draw the little ghost's face.

## Step 2:

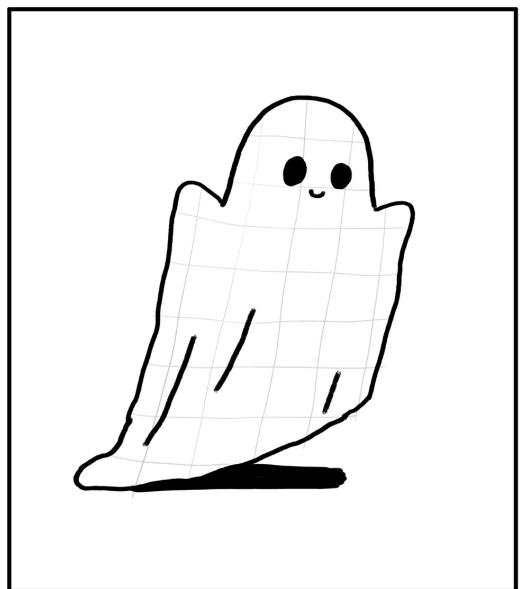

Next we will draw his arms and body.

## Step 3:

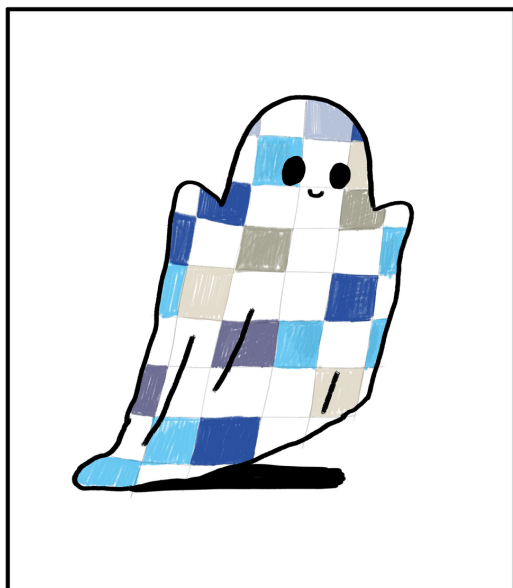

Since quilts are heavy be sure to include a little lumpy tail like he is dragging along the ground.

We will also add a light shadow under him.

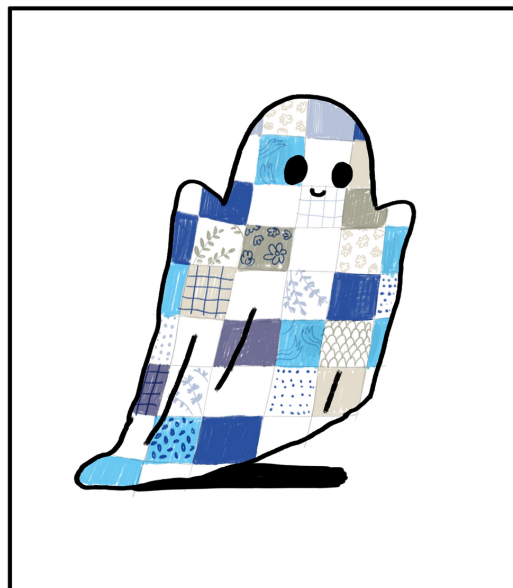

## Step 4:

With a pencil lightly draw a grid along his body. You can make the squares as big or small as you like!

### Step 5: Colour the squares.

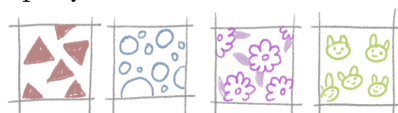

Lets colour him in! Pick some squares and fill in with colour. The little ghost in the book is blue and purple but you can choose whatever colours you like because all quilts are different.

### Step 6: Decorate!

Now we get to decorate our ghost. Fill your squares with flowers and shapes. Quilts are made from many different fabric patterns sewn together so you can draw any shapes you want in each square.
