

#TundraTime Activities

Hardcover | ISBN 9780735266582 | 84 Pages
Age: 6-9 years | Grade 1-4

ABOUT THE BOOK

Celeste is a cockroach, and everyone knows that cockroaches are survivors, so who better to give advice on surviving an encounter with a polite predator?

Everyone also knows that taking a moonlit promenade with a deadly reticulated python (named Frank) is a very bad idea. But Celeste loves very bad ideas, and she is willing to put your life on the line to prove herself right!

Using her superior pythonine knowledge, Celeste comes up with various strategies and solutions — many dangerous, most absurd, but all based on the biology of pythons.

Meanwhile, Frank is hatching his own plans . . .

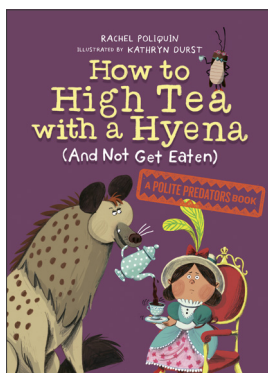

KEEP THE CONVERSATION GOING

Here are some ideas, activities and questions to consider after you've read the book.

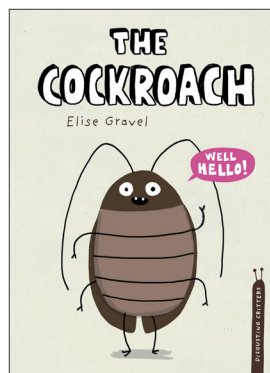

- What are five characteristics of a python that make it a good predator?
- Invent your own predator and make up five fun facts about them!
- What was the most interesting python fact that you learned in this book?

ACTIVITY

Frank the Python can't wrap his body around you if you're wearing an anti-squeeze shield. What would your anti-squeeze shield be made of? What would it look like? Draw your own anti-squeeze shield below. Don't forget to label the parts!

How to Promenade with a Python (And Not Get Eaten) by Rachel Poliquin, illustrated by Kathryn Durst · ISBN 9780735266582
