

# #TundraTime Activities

Hardcover | ISBN 9780735268968 | 48 Pages  
Age: 4-8 | Preschool-Grade 3

## ABOUT THE BOOK

Fox loves nature, and enjoys discovering strange and fascinating plants. He especially loves the seaside and often walks the salty coastal trails with his cousin Wolf. One day, Seagull tells the two about an especially interesting underwater plant called the constellation of the deep that glows in the dark, but no one knows where to find it. Before long, Fox has donned his diving equipment, including a wet suit, a snorkel, a diving mask, fins and more, and sets off on an underwater quest to find this incredible plant. Along the way, Fox observes many different kinds of ocean life, not to mention some underwater friends who try to help guide him to the elusive plant. But Fox despairs when he loses his camera — even if he finds the constellation of the deep, how will he capture this amazing discovery? With spreads of informational content interspersed throughout, *Constellation of the Deep* details the wonders of the underwater world and celebrates observing the beauty of nature.

## KEEP THE CONVERSATION GOING

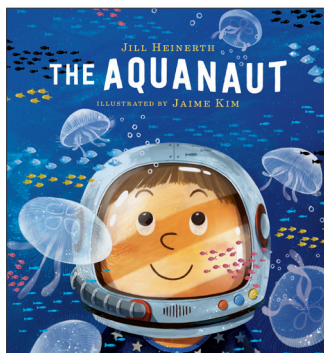

Here are some ideas, activities and questions to consider after you've read the book:

- Make a hanging mobile using found natural objects, such as seashells, driftwood or small stones.
- Go on a beach or nature walk with an observation journal and make notes about what you see.
- Organize a beach shore cleanup with your friends and family. If you don't live near any beaches, choose a nearby park or playground.
